To Whom It May Concern:

Lombard Canada Ltd. would like to draw your attention to the potential benefits of valuation services offered by Tool Inventory & Appraisal System Inc. (TIAS).

These services may be of value to businesses in the automotive repair industry in providing a current and complete inventory of tools and equipment, as well as the dollar value and condition of tools. These services can help ensure that repair shops are adequately covered with proper insurance, on their equipment and can ease the claims settlement process.

Lombard Canada encourages its auto repair shop clients to investigate the advantage of these services.

Sincerely,
